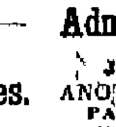
ANOTHER LARGE LOT OF
PATENT SELF HEATING
SMOOTHING IRONS!



MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements, but ... have been nearly neglected until the introduction of the Patent Self Heating Smoothing Iron, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch—one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' irons are constructed upon the same principle, and possess equal superiority.

More Bounty Lands.
BY the Act of Congress passed March 3, 1855, all Officers, Soldiers and Seamen who have served FOURTEEN DAYS in any war of the United States since 1775 are entitled to 160 acres of land, if they have not received it. Those who have received 40 or 80 acres, are now entitled to enough more to make up the 160. Those who have received 160 acres are not entitled to any more. The benefit of this Act extends to the widow and minor children of the soldier, but to no other heirs. Those who have been engaged in BATTLE are entitled to 160 acres, without regard to the period of their service.
Persons having claims under this or any other Act will have them promptly attended to by calling on, or writing to A. L. RICHARDSON & CO. 11 Railroad Exchange Court Square, Boston, who pay cash for warrants
N. B.—We have faithful and experienced agents in Washington, and we make no charge in any case, unless we obtain the land.

New and Old Issues—True and False Whigism.

The new editor of the Journal, has an article of considerable length in his paper of Thursday, in reply to some remarks of ours upon his salutatory address. We had no space yesterday to notice it, and do not know that it is necessary for us now to examine it in detail. The position we have assumed politically is well enough understood by the sincere and honest Whigs who have believed it right, just and patriotic—for the advancement of their principles and for the welfare of the country—to act in another organization than the one which formerly existed under the name of Whig, and being understood by them, we are indifferent to the assaults or the misrepresentations of men who now claim to be Whigs, par excellence, and are fighting for the mere name, while the substance has long since departed. It is true, as Mr. Sanborn says, that the object of our position from the known circumstances—but not such circumstances as he would intimate. So long as the old Whig party was homogeneous in its elements, and had a reasonable show of carrying out its principles at some time or other,—so long as it had distinctive, vital issue, under which to battle with the Democratic party which party—we were for maintaining its organization under its old distinctive name.

But no one is set or aware than the editor of the Journal, that for the past four or five years, a fatal and irreconcilable division has been growing up in the old Whig and Democratic parties—and that that division has been *upon new and larger issues* which could no longer be ignored. One section of each has been in favor of progressive legislation, while the Democratic—the other section has been opposed to it, really and at heart always, although sometimes openly and unrighteously. The former section has also been almost unconditionally anti slavery in its sentiments, opposed to any further compromises with the slave power, and ready and anxious to oppose, to the utmost, not only the extension of slavery over any more free territory, but also the admission of any more slave States into the Union. The latter, however they may at times have concealed their real sentiments, and bowed to the dictation of the Nebraska whirlwind in the North, are well known to sympathize to-day, as in 1850 and 1851, with the "Union savers" who opposed and defeated Gen. Scott in 1852, because he was supported by anti slavery men like Wilson or Seward, and was therefore obnoxious to Southern Whigs.

We say that, up to last year, each of the old parties had been dividing off into irreconcilable sections upon the two vital issues—and the "force of circumstances" under which we found ourself then placed, called upon us to choose which of the two should receive our sympathy and support. We saw that the crisis had arrived, when a division must take place—when those who thought alike must act together or—as we had no hesitation as to where we should go. We are to-day acting with that section of the Whig party (the largest and most sincere, as we believe,) with whom we had fellowshiped previous to the dissolution; and with this section there was united, and homogeneously united, that portion of the old Democratic party which agreed with us in sentiment. Opposed to us we now find acting the "national" party, and anti liquor law portion of the Democracy, and the corresponding section of the old Whig party.

The Bomb in calls it a "confession," an "admission," when we say that the Republican party stands to the same principles in all essential points that were cherished by the Whig party." It is simply the statement of a fact. A majority of the old Whig party of the North did banish the principles of prohibition, and of *practical, effectual* opposition to the encroachments of slavery. They cherish those principles now, and by a cordial, practical union with the elements of other parties which go to make up the majority, have been enabled to secure both a zero upon the politics of the State, and to throw the influence of the State in accordance with the sentiment of the people. Those who claim to be "Whigs and nothing else," however, are by no means imbued with those principles.

Thus much now for the circumstances which have placed us in our present position.

As for the responsibility of breaking up the old Whig party, it cannot be with us nor with those with whom we act. Daniel Webster pronounced the party dead in 1852, and the gentlemen who now claim, forsooth, to be the Whig party, and have for their only organ in the State the Bangor Journal, re-echoed and applauded the allegation, and did what they could to make it true, by opposing either openly or covertly, the Presidential and other nominees of the party. And when, upon the introduction of the Nebraska bill in Congress, a chasm of the Southern Whigs voted to abandon the Missouri compromise, the death-blow was really and fully given to the National Whig party. It has had no existence since.—The great majority of Northern Whigs can no more meet in national convention with former Southern coadjutors; and in many of the Northern States the great majority of the party, consisting of the anti-slavery and temperance Whigs have deemed it wise to unite under another name, with those Democrats who have also altered Southern dictation.

The above are but general remarks upon the present position of politics. Should occasion require, we may go into some particulars touching the antecedents of men who now have such a love of pure Whigism.

VIRGINIA ELECTION.—Upon the authority of the Whig Almanac, it has been stated that the State election in Virginia was to take place on the fourth Thursday of April. This was a mistake. The fourth Thursday of *May* is the day, according to the Albany Journal.

CALIFORNIA PRODUCTIONS.—The agricultural resources of California are being very rapidly developed. An observing horticulturist in the county of Humboldt, states that there are at least one hundred fruit-bearing bushes, shrubs &c. now in that county many of which he has never seen or heard described as growing elsewhere. He has recently sent to Col. Warren, editor of the California Farmer, several varieties of currant-bushes. The fruit of one of these he describes as larger than the largest raspberry, and of exquisite flavor. Also red and white salmon berry, a gigantic species of raspberry; and an ever-green bush which bears a fruit resembling an olive, which is used by the Indians as an article of food. In the lakes was found beautiful varieties of honeysuckle, cherry, gooseberry, plum and magnolias. "Prunus" ornament among them all that are productions of the new State.

The steamer Daniel Webster enters upon the business season in excellent condition, and ready to be the traveller such comforts and conveniences as in former days were not dreamed of on board steamboats or packets. Her well-appointed and luxurious cabins, state-rooms and saloons, and her tables bountiful furnished with everything that can minister to the demands of appetite, render travelling a pleasure instead of a toil. Her commander, Capt. Blanchard, is one of the most efficient and gentlemanly and accommodating officers. Mr Cushing the clerk, and Mr Doyle, the big ago-master are well known and highly approved officers. The management of the boat is throughout admirable.

AN INTERESTING PAPER.—A writer in St. Petersburg says that, whenever the tenure of the Imperial Court at the Winter Palace, the number of residents is never less than *six thousand*, and sometimes reaches one thousand. Besides this permanent population there is a never ending throng of visitors. This great palace covers an area of 400 by 300 feet—and yet it was virtually destroyed in a single night, from the flames of the conflagration which consumed all the interior of the old Winter Palace.

The total receipts from the income tax, which took place on Tuesday evening and Wednesday morning next—a total of "three days and a half" by evening, as the compositor made us say yesterday. The receipts commence at 8:38 mean time, on Tuesday evening and does not entirely pass off until 22 minutes past one o'clock Wednesday morning—according to calculations in the Boston Traveller.

THE New Monthly for April. Boston: Phillips, Sampson & Co. The leading article is a long and interesting paper upon the Mormon Delusion, in reply to some positions in a review of a previous article. In this number of the Repository closes the seventh volume of the New Series, and contains an Index and Table of the contents of the volume.

MR. EDITOR:—I send you Little's communication on the Order of Sons of Malta, in yesterday's paper, with one or two corrections. In the first paragraph, sixth line, instead of flavor read form; in the second paragraph, second line, read Irving's instead of Hallenbeck's; and in the first line of the last paragraph, for had read has.

[Communication received.]

THE examinations terminated on Thursday evening, and yesterday was a day of blustering March weather—snow, sleet and sunshine alternating, and a cold north-west wind prevailing throughout the day.

WE are gratified to learn, from the Belfast Age that Hon. Rufus K. Crowell is rapidly recovering health. There has been a deep anxiety on account of his illness.

BAROMETER CHANGES COURSE.—By a law of last session, there are hereafter to be only two terms of the Supreme Court for this county—on the first Tuesdays of April and February—instead of three, as formerly.

POTATOES are retailed from Nova Scotia to Eastport, and sold at 70 and 75 cents per bushel. At Lubec sailers put them at $1.50. The retail price here is in the neighborhood of $1.25 per bushel.

THE ANNUAL OF THE GRAND LODGE OF PENNSYLVANIA.—Resolutions have passed the Senate of Pennsylvania for the removal of the seat of government from Harrisburg to Philadelphia.

The immigration to New York, from foreign countries, has fallen off about 30,000 in the months of March and April, as compared with last year.

The number of inmates at the Poor House on Blackwell's Island, New York, on the 21st inst. was 3,931, being an increase of 311 over the previous week.

The Portsmouth edition factory was not greatly damaged by the fire which was reported on Thursday.

A post Mary Cooley of Palmer, Mass. $17,000 to kiss Mrs Mary M. Clark against her will. Expensive luxury.

There are now 166 boys at the State Reform School.

Legal Kansas. The Kansas Herald of Freedom, April 7th, states the Governor Reeder has determined to submit the recent outrages now in that Territory, to the U. S. Attorney General for his opinion.

The paper says the Missourians wanted Governor Reeder in person, and told him he had the choice of one of three things. To sign his certificate of election in fifteen minutes, to resign, or hang! The response was ready: "Gentlemen, my mind is made up without further deliberation; I shall hang!" He had, it adds in this friend, who would have been a bonne in practical enforcement of this threat."

The Louisville Sovereign, a pro-slavery paper published at Atchison, K. T., advises the formation of "vigilant committees" to prevent effective property in Kansas by Lynch Law, if necessary; and further recommends that he (Governor) Lawrence be driven out of the Territory forthwith. The same paper which issued April 10th, contains resolutions passed at a large and enthusiastic meeting held at Nicholas, K. T., on the 17th inst., nominating Theodore Johnson for Governor, to be voted for by slavery district at the coming election; and declaring that the action of the people in the premises is to be considered as a protest to the President to remove Gov. Reeder, and commission the man they may elect.

Variety.

Liberal. Reuben B. Gunn, of Waterville, has given $7000 to aid the Methodist Biblical Institute at Concord, N. H.—*Argus.*

Under the yard of the Washington House, Philadelphia, a lead pipe has been found, five inches in diameter, with a mouth piece in the cellar of the hotel, leading to a vault of masonry fourteen feet distant in which were a dilapidated trunk, a crowbar, and a fingering; but the strangest discovery of all, was a ringbolt secured to the wall, and upon the ground around it a number of human bones.

An Irishman, taken inscensible from the ruins of a recent railroad smash up near Dunkirk, New York, after awaking to consciousness, said

"By the powers sir, wasn't it a Know Nothing I was for a few moments, gintlemen?"

A Cicerone directing the attention of a foreigner to the portrait of Hackett, said, "This is the man who unveiled the revelation of the blood!"

There is a locomotive on the Illinois Railroad so heavy that its shadow weighs a ton and a half.

A little boy who had "a cold in his head" all season, being asked at school the other day, "what the nose was good for?" innocently replied, "Please ma'am to blow."

A Frenchman, who had sojourned for some time in one of our eastern cities, and whose ideas of cooks and cookery being wholly Parisian, had been utterly horrified at the "dreadful messes" he met with at the ordinary of his hotel, exclaimed one day in the deepest disgust, "Ah, vat cordle is under la dis, vare is two hundred religions and only one gravy!"

Running to Ribbons. The New York Life Illustrated says

"The latest folly enjoyed by the goddess of fashion upon abject devotees, the ladies of the enlightened metropolis, is the wearing of the horse ribbons four feet long. The bonnets, meanwhile, continue to recede from public observation. They have long been invisible to the naked eye—of the wearer, and now threaten to run entirely to ribbon.

"Please exchange," said our printer's devil when he kissed his sweetheart.

Another. Why is kissing like a rumor? Because it goes from mouth to mouth.

A Connecticut editor says that prejudices against color are not natural, and yet the pet in the girl he ever saw was Olive Brown.

The editor of the Providence Journal is a humorist of the first water. He takes the recent defeat of his party in Rhode Island in the most philosophical manner, and gathers up the remaining fragments with a grave ridicule which is entirely irresistible. Hear him:

It used to be the boast of the Democrats in the palmy days of their party—when twenty dollars and money plenty—that they were so thoroughly organized that they could predict within a dozen votes the majority in any town. That the Whig party has been somewhat reduced in various parts of the State, we will not deny, but its organization is capital. There was never a time when we could know our men with more accuracy or depend on them with more confidence. Last week we had the pleasure of shaking hands with one half the Whig party in Cranston. He represented the condition of things in that town very hopefully, and felt the greatest confidence that at the worst there could be little falling off in the Whig vote at the next trial. He has not yet found his colleague, the man who constitutes the other half of the party, but he is sure of his half, and so are we, for he is no other than our excellent friend, James Aldrich, long one of the most substantial citizens of that town, and formerly town clerk.

In Gloucester the Whig party is larger, outnumbering the vote of Cranston full fifty per cent, nor is formation is naturally less particular in so large a vote, and in Scituate, where the Whig vote goes up to eight, and in Little Compton, where it reaches nine, of course it is impossible for us to keep the run of the party.

It may be recorded as a singular coincidence that in each of the three towns of Cranston, Burrillville and West Greenwich the Whig vote is just the same, being *two*—we write the figures out, as in cases where accuracy is required it is not safe to trust to numerals. Perfect candor however, would seem to require that we should say that the above two votes in West Greenwich must not be set down to the credit of the Whig party; one of them, we learn on excellent authority, was given by a Democrat. Notwithstanding this division, in their ranks, the Democrats run their vote up to seventy-seven. Deducting this vote conceded to be from a Democrat, and we have a grand total of one which by another singular coincidence is the exact measure of the Whig party in New Shoreham. In the seven towns which we have named, the Whigs threw twenty-six votes, without counting the West Greenwich Democrat. If to these we add five votes in Charlestown, the sixteen in Johnston, the eleven in Hopkinton, the thirteen in Middletown, the nine in Exeter and the seventeen in Barrington, we have for twelve of the thirty-one towns in the State, a rum total of eighty-nine votes. And now we think that we have answered the important question so often put to us,—where is the Whig party?

WONDERFUL PHENOMENA AND NARROW ESCAPE.—The Oswego Palladium of Friday relates the following incident of the recent thunder storm in that vicinity. The family of Mr Ira Skillings, residing near Lonesteel's saw mill, were up and about breakfast.—Mr Skillings and a little girl about 13 years of age a sister of Mrs Skillings, were standing near the stove, when a tremendous flash of light and clap of thunder occurred. The flash struck the chimney of the dwelling, passed down the chimney, followed the stovepipe to the stove, and the fire diffused itself in every direction, passing out through the floor and on one side of the house. Mr Skillings was thrown down senseless upon the floor, his clothes torn in tatters on one side and the right side of his body severely burned and paralyzed. The little girl, apparently, was not so injured; but what is almost as subtle, she was thrown down and the bloom on which she had been at customary for young girls attending school in the country to wear laughter boots was torn apart around the ankle and the foot of the boots forced from her feet with the stockings, and thrown some six or eight distant, leaving the boot legs entire on the girl. The chimney was nearly torn to pieces, many bricks were thrown some eighteen rods distant, and the floor was torn up in several places, but no one else of the house was very much shaken. The sawmill and ashes are eight or ten rods from the dwelling. Two men, Wm. Shores and Sylvester Spencer, who were at work there, were both struck down and were unconscious for several minutes, but were not much injured. Mr Skillings was thought not to be dangerously, though quite seriously injured. Mr Mead was the effect of the stroke upon the house, immediately after it occurred. In the cloud of dust and smoke which suddenly arose, and he did not see other neighbors run to the house, some eighty rods, with all speed. Mrs Skillings happened to be in another room at the moment, and escaped uninjured.

Stephen E. Glover, who speculaties" was well known merchant in New York, has been arrested and held to bail in $20,000, on a charge of fitting out the bark Millander, for the slave trade.

THE COCOS ISLAND TREASURE.—The dozen or so deluded individuals who, undaunted, not long since, on expedition in search of some millions of treasure, which they conceived to be buried on Cocos Island, have nearly all returned to San Francisco, poorer, if possible, than the most unfortunate of the thousands of victims yearly sacrificed to the gold mining humbugs locate nearer home. A few crumbs of consolation may begin some for them in the issue of the Kerr Island excitement, but their right to take the lead in the list of delinquents who have failed to meet the last assessment upon common sense, will never be disputed. It will be remembered that after first visiting the island, the vessel proceeded to Punta Arenas, in Costa Rica, where fresh revelations were derived from a dying man, most romantically discovered in the peregrinations of one of the leaders of the party. Returning to the island with a corrected chart to guide their search, they went to work and devoted forty days to delving beneath the soil, during which time the rain poured down unceasingly, and although they came to the bed-rock at the depth of a foot or two, the "pocket" could not be found. The angles and bearings given for determining the precise locality of the treasure spot, placed it several fathoms out at sea, and being unprovided with diving bells, they could not prospect in that direction. But they did labor hard and plough the caves of earth, without the sight of anything more substantial turning up. At last the long-cherished hallucination was dispelled, and the miserable squad again embarked upon the little craft, the most ragged and forlorn of all adventurers that ever gave credence to the treasure tales that garnish the pages of pirate lore.—*San Francisco Era.*

A THRILLING CALAMITY.—The *New York Staats Zeitung* obtains, among the news brought by the Pfalherille, a heart-rending tale from Dalene, dated the 31st of March last, as follows:

"The breaking and floating down of ice on the Vistula, which has been so often the source of great damage to the surrounding lowlands, has this spring taken place with such terrible violence as to surpass anything of the kind within the last fifty years.

The strong dykes constructed at an immense cost along the banks of the river, have been swept away in many places by the infuriated element, and four hundred square miles of the most cultivated land, the best wheat producing district in the world, are now covered by water, and have the appearance of a lake.

One hundred human corpses had already been picked up near a single place, (Jegenhoff) when the above report was sent off."

Mr Orchard the editor of a German paper in New York, calls upon all Germans to contribute liberally towards a fund for the relief of the thousands who have been bereft of their all by this overwhelming calamity.

A Run upon an Indiana Bank.

Can you give me specie on this?
No.
Sight or short time eastern exchange?
No.
What can you give me?
Nothing.
Why?
You are making a run on our institution. This species of presentation we are bound to resist.—You are trying to beat us sir—to make us stop payment, we see you can do it, sir.
But have you stopped payment when you refuse to redeem?
No, sir. Ours is a stock institution. There's your ultimate security sir; it is deposited with the auditor. We can't break, sir, we can't stop payment. Look at the law. Look at Mr. John P. Dunn's circular.
But have you no specie on hand?
Yes sir, and we are bound to keep it. The law obliges us to keep five to one and a half per cent of specie on hand. If we pay out every time one of you fellows call, how can we keep any on hand?
Then I shall proceed to have the note protested.
Very well, sir. You will find a notary public at Indianapolis, presided he is at home, which is not about one time out and forty miles from here. But, sir, you had better go home and rely upon your ultimate security. We can't pay you in specie—find it won't do, but you are ultimately secure; you can't lose your money, though you never get it. Remember that.
We will suppose our gentleman so unreasonable as not to be satisfied with the representations of the satisfied teller, or the great principle of ultimate security. He finds his way to Indianapolis, makes a protest in due form, and, note in hand, proceeds to the office of the Hon. John P. Dunn, Auditor of the State when another dialogue ensues.
Sir, I have a note at the Squash Bank, at Lost Prairie, with certificate of protest, which I want to deposite in your hands, with a request that you make collection as speedily as possible.
Certainly, sir.
How long before I can expect to realize upon the ultimate securities of the institution?
Thirty days is at rule.
Not quite so soon as that, sir. I shall forthwith give notice to the officers of the Squash Bank. If they pay no attention to it I shall offer the securities in my hands for sale, but in discharging my duty to all the creditors of the institution, I shall not proceed to offer any of its assets in this market less valid offer at least sixty days' notice in one which by another singular coincidence is the exact measure of the Whig party in New Shoreham. In the seven towns which we have named, the Whigs threw twenty-six votes, without counting the West Greenwich Democrat. If to these we add five votes in Charlestown, the sixteen in Johnston, the eleven in Hopkinton, the thirteen in Middletown, the nine in Exeter and the seventeen in Barrington, we have for twelve of the thirty-one towns in the State, a rum total of eighty-nine votes. And now we think that we have answered the important question so often put to us,—where is the Whig party?

CALIFORNIA EXTRAVAGANCE.—A correspondent of the New Orleans Delta writing from San Francisco, January 8th, says

"There is more distress here than one yet outside would imagine. At the same time there is more extravagance there dash with you, if possible.—The fashion of New Year's Day is being carried out here. This year far exceeded any previous one, in the costliness of the entertainments and ladies' dresses—the former dashing, in some instances, $500, and the latter $200 to $600. Most of these people who spend so much are the mechanic's wives and the way they dress is a caution to mens' pockets. Laces from $15 to $300 the set. Any quantity of dresses can be seen daily on Montgomery street, at $100, $200, and $300. Nobody wears a "calico" here, not even servant girls, who spurt their $10 and $15 handkerchiefs. No where is money, in some cases, so easily made and so easily spent as in the very San Francisco."

EXPEDITION TO THE PLAINS.—Active preparations are making for this expedition and the troops are put *en route* as rapidly as possible.—Two companies left also on the decade of the week, and a much larger force will leave to-day or Monday next. The whole army will be ready to march from Fort Leavenworth before the grass is sufficiently high for forage, for the animals attached to the expedition. Something of the extent of the expenditure may be inferred from the fact, that 5,000 barrels of flour, at $12 per barrel, make one of the items of the account of purchases. It is to be put up in sacks.—*St. Louis, April 14.*

A Paris paper states that Dr. Grieselle, a French gentleman, has discovered that by adding a few drops of nitric ether to the most rancid oils, all the disagreeable smell is removed, and that by afterwards warming the oil, to separate the spirit from it, it becomes as clear and as limpid as though it has never been otherwise than sweet. He says that a few drops of ether in a bottle of oil will prevent it from becoming rancid.

A rough diamond picked up near Manchester, Va., a small town opposite Richmond, is about the size of a hazel nut, and weighs forty-three carats. Jewellers estimate its value at one thousand dollars, and think that it is the largest diamond ever found in North America.

The death of an old man's wife," says Lamartine, "is like cutting down an ancient oak that has long shaded the family mansion.—Henceforth the glare of the world, with its cares and vicissitudes, falls upon the old widower's heart, and there is nothing to break their force, or shield him from the full weight of misfortune. It is as if his right hand was withered, as if one wing of an eagle was broken, and every movement that he made brought him to the ground. His eyes are dim and glassy, and when the film of death falls over him, he misses those accustomed tones which might have smoothed his passage to the grave."

HACK HIRE IN BOSTON. A new tariff has been adopted regulating the prices of hacks in Boston. In future the fare of a hack within the city proper, will be 25 cents, and in a hackney coach 30 cents, except between the hours of 11 P. M. and 5 A. M., when the fare in each will be 50 cents; to or from East or South Boston, the fare in either hack or coach is to be 75 cents; for children between four and twelve years old the fare is to be 15 cents—under four years no charge. These rates are to go into effect on the first of May.

THE YOUNG WOMAN'S INFLUENCE.—The character of the young men of a community depends much upon that of the young women. If the latter are cultivated, intelligent and accomplished, the young men will feel the requirement that they themselves should be upright, gentlemanly and refined; but if these female friends are frivolous and silly, the young men will be found dissipated and worthless.

The house of Mr Jacob Fees, an old and respected citizen of Davis County, Iowa was entered by robbers on the 3d inst., the inmates stupified by chloroform, and eight hundred dollars stolen from between the two beds upon which Mr Fees and his wife were sleeping.

RESIGNATION OF COMMISSIONER MASON.—It is stated, that Judge Mason, Commissioner of Patents, has resigned his post. It is said that he has brought up all the arrears of business for years, and will leave the office in a highly flourishing condition.

Twelve hundred and fifty-four brick buildings were erected in St. Louis during the past year. Some of them cost from $30 000 to $100,000. The total cost is estimated at $3 - $11,000.

Bangor Female Orphan Asylum.

The annual meeting of the B. F. Orphan Asylum will be held at the Common Council room on May last at 3 o'clock P. M. The yearly subscription of one dollar will then become due. Subscriptions are respectfully solicited to send in the subscriptions. S. M. SIBLEY, Sec'y.

New England Roofing Company.

MANUFACTURERS OF

WARREN'S IMPROVED

Fire and Water Proof

Composition Roofs,

Office——7 Liberty Square, Boston.

THIS Company would respectfully call the attention of Architects, Builders and Owners, and the Public to this simple composition of Roofing which has been very successfully adopted in the cities of Buffalo, Cincinnati, Chicago, and St. Louis, and with it the patronage of a portion and vicinity, will give it the fullest support. It is rapidly superseding all other kinds of Roofing, and is constantly ordered by the Public, as a mode of roofing is objectionable in many important particulars.

The materials employed are none of them liable to contraction or rust, like tin metals, nor to expand and contract with changes of temperature, like *tin* and *iron*, nor absorb moisture in wet weather, and swell and decay, like shingles and other wood coverings.

It combines to a greater degree than any other Fire Proof Roofing in use, the qualities of cheapness, durability, and security from leaks in all kinds of weather.

These Roofs are quite as handsome, and in fact more than one inch in pitch looks well, is sufficient for a promenade for ladies, and is of particular advantage to adopt in the event of fire.

They are afforded at a much less price than other Fire Proof Roofs. They are simple and easily applied, and which would be used more extensively, still further reduces the cost of them.

Another feature gained is the addition of rooms in the upper story, of the most desirable and quite as accommodious, as those in the lower part of the building. These can be in any building, with this improvement at all times greater than that of a building of two stories with the pitched roof. There are not the exposures to the rest of gutters.

These roofs are not liable to the objections of chimney—like those of Tin or Slate.

The Composition is so put up that it can be protected by the customers of the occupant.

In case of injury from any source whatever, the roof is so easily or quickly repaired.

Further information obtained in any part of the State at the office of the Company in Office.

California Steamers, Carrying the United States Mail.

Through Tickets including transit of the Isthmus, via Panama R. R.

5th and 20th of each Month.

By order of the Postmaster General the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month, except when these dates come on Sunday, and then the day of sailing will be postponed to the following Monday.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamers will leave Panama for San Francisco immediately on arrival of the Atlantic mails and passengers, thus securing passengers by the Mail Line, a sure and short passage, without any detention on the Isthmus.

Passengers are landed at the Railroad Depot, Aspinwall, free of expense. The Railroad being completed, and Cars running through to Panama, four hours only are required for crossing the Isthmus.

Tickets must be signed by one of the Company's Agents, before they will be recognized, by the Agent at Panama, and Tickets thus signed can be obtained at the Only authorized Agency for the Pacific Mail Steamship Company in this city.

Radway's Regulators.

The Third Great Medical Discovery of Radway & Co.

ONE REGULATOR is sufficient to regulate the bowels, Liver and Pancreas, to a healthy discharge of their functions.

Two will insure a pleasant discharge from the Bowels at a regular period of time every day.

Four to six will purge thoroughly all corrupt and acrimonious humors from the alimentary canal.

Important to Pill Takers.

Every one who is in the habit of taking pills will find RADWAY'S REGULATORS the most pleasant, safe, and effectual regulator of the Bowels, Liver, Pancreas, and the most certain Purifier of the Blood in use.

One of Radway's Regulators is superior, in point of mild strength, and efficacy, to six of the most popular and best approved cathartic pills.

Radway's Regulators.

Radway's Regulators are most carefully prepared from extracts and gums of three plants, roots and herbs. There are no pills in use that will act upon the Liver, Pancreas, Bowels, the Salivary Glands and Nerves, so pleasantly and effectually as the R. R. REGULATORS. No pills can be taken for any length of time with the same safety to the constitution, for, instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowels and impart strength to every nerve and tissue of the body.

Regulators vs. Pills.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills?

We answer that pills as they are ordinarily prepared and sold in different manufactures, are generally of two kinds—those which operate on the bowels merely, called purgative pills, and those which excite the secretion of [illegible], and are called mercurial or liver pills. Radway's Regulators resemble pills merely in shape, but differ in every other characteristic. They act not only on the bowels, but on the liver, skin, pancreas, and kidneys, regulating each organ to a healthy action. They do not irritate, and are as free from mercury as those purgatives pills that [illegible] the liver without salivating the patient with salivation, as mercurial pills do, containing no quantity of mercury in their composition, they are harmless when used for a length of time. They are tasteless, being enveloped in an elegant coating of gum. 1 to 3 regulate, 3 to 6 purge—good at all times.

As a Family Physic

RADWAY'S REGULATORS are the most innocent, safe, mild and pleasant pills in use. They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint, Kidney Complaint, Jaundice, Head Aches, Nervousness, Megrims [illegible], Diseases of the Bladder.

Female Complaints,

Leucorrhea, Fluor Albus, Whites, and Irregularities of all kinds.

Billious Diseases,

Bile on the Stomach, Bilious Cholic, Enlargement of the Spleen, and all Chronic Affections of the Liver and Kidneys.

R. R. R. REMEDIES are sold by Druggists everywhere.

DR. J. H. SCHENCK'S PULMONIC SYRUP, For the Cure of Consumption.

THE proprietor of this medicine was himself, many years ago, reduced so low as to be given up by his physicians and friends, in the last stage of Consumption. When all hopes of ever getting well had fled, he was strongly recommended to use a Syrup made from an old Indian receipt, which succeeded in effecting a cure on him. The family physicians and a large number of respectable gentlemen certified to the facts of this case, and soon the Pulmonic Syrup obtained a reputation never equalled in that section of the country. Its virtues, as thus revealed, [illegible] sensation second to the story of a miracle. Dr. Schenck was visited upon by many similarly afflicted, to whom he administered the Syrup with the same beneficial results. In fact, so it was the notoriety of this medicine, that eminent physicians had their attention drawn toward the rising reputation of it, from having witnessed its curative powers, and freely extended the hand of friendship and encouragement to Dr. Schenck, and introduced the medicine to the public and used it in their daily practice.

No other medicine operates upon the system in the manner that the Pulmonic Syrup does. It produces a healthy action upon the morbid parts, by purifying them from disease, it promotes the expectorations, allays the cough, ripens the matter on the lungs, and when it is discharged, it heals the ulcerating that the breaking of the tubercles or disease produces, which thus become sound and healthy the perform-[illegible] of their natural functions, it also soothes the irritated portion of the lungs and other organs, and causes these parts to be [illegible]. 2 superior [illegible] the medicine possesses over all others is that it contains no opium, calomel, or any other deleterious medicine.

In 1831 Dr. Schenck removed from Flemington, New Jersey, to Philadelphia, and commenced the practice of his profession, where he soon acquired a reputation as excellent by none, in curing a disease that had heretofore been deemed incurable, and he has since then daily presented to the world incontestible evidence of his success.

Both of his parents died with Consumption, which appears to have been an hereditary disease with his father's family. All his brothers and sisters except one, died early of this disease, none of them, but the one brother, reaching the age of twenty.

Thus, it nearly the last of his family, as naturally, felt some alarm, as one after another were consigned to their last beds by this fell destroyer.

VOLUNTARY TESTIMONY.

We, the subscribers, residents of Flemington, do hereby certify that we are well acquainted with Dr. J. H. Schenck. He was attacked by disease, which, as we believe, terminated in Pulmonary Consumption, under the operation of which he was reduced so low as to be unable to leave his bed or a long time, and to all appearance was past recovery. He is now perfectly well—his cough and other have left him, and we feel justified in declaring it as our belief that he is indebted his recovery has resulted from the use of the Pulmonic Syrup.

The Most Successful Remedy.

REV. WALTER CLARKE'S

Great European Cough Remedy, —OR— Universal Cough Mixture,

IS unquestionably the best remedy for Coughs and Chronic Pulmonary Diseases ever discovered. Read the following certificates, and remember they are all from persons of first rate respectability, and they all live in this State, and are willing to answer all enquiries addressed to them.—Read and judge for yourselves. They are selected from a multitude of others.

From Dr. John Brown, Liberty, Me.

DEAR SIR.—I have made use of your European Cough Remedy for a cough with which I have been afflicted for some time, to my entire satisfaction, and have also employed it in my practice with the happiest results, and am fully convinced that it is one of the best medicines in use for what it is recommended. JOHN BROWN, M. D.

Mrs. H. [illegible], of Scarborough, and for two years and six months been afflicted with a most distressing cough, with extreme dyspepsia of the lungs and other painful symptoms. During this time she had employed good physicians, and taken many of the popular advertised medicines without experiencing any permanent benefit. Many night she was obliged to sit up for hours not being able to breath lying down, and her friends despaired of her recovery. Last June she was induced to try Rev. W. Clarke's Great European Cough Remedy. A trial bottle (25 cts.) greatly relieved her, and encouraged her to try a large one, 75 cts., and to the astonishment of all who knew her, these two bottles, without any other medicine whatever, completely restored her to health, which she continues to enjoy.

Mr. and Mrs. Hunnewell hold themselves ready to answer all enquiries respecting the above extraordinary cure, and are satisfied that the European Cough Mixture is the best remedy known for Coughs and disorders of the Chest and Lungs and [illegible] they recommend it to the afflicted.

They also state that Mr. Wilson, one of their neighbors, who was considered by his friends to be in consumption, was persuaded to try the European Cough Remedy, and the result was a rapid recovery.

Remarkable Cure of Phthisic, with severe Cough, communicated by Mr. Brewster, Postmaster at Curtis Corner, Aug 20th, 1853. Rev. Walter Clarke—*Dear Sir*: Mr. Samuel Shaw, residing in Greene, Kennebec county, Me., has been afflicted with the Phthisic for a number of years. For the past winter he was so distressed for breath that he could not lay down. At last hearing of the European Cough Remedy, he sent for a bottle and commenced taking it. He was greatly relieved by the first dose, and from that time he rested well at night. A few bottles completed the cure, and he now desires to recommend the medicine to others, as he is fully assured that it is worthy of the utmost confidence.

The following has just been received from John Dresser, Esq., agent for Paris, Me., dated Nov. 8, 1855.

Dear Sir—You will recollect that when you were here I had a severe cough of three months standing, had tried all the cough medicines I could obtain without success. Your medicine has cured it. It has also cured many of my neighbors. Please send me some more medicine immediately.

Yours, &c. JOHN DRESSER.

Rev. T. Oliver, West Waterville, testifies to the extraordinary cure of a lady, who, to all appearance, was in the last stage of consumption so that it was thought she could live but a short time. A single bottle cured her cough, and she speedily recovered. Bro. Oliver states that he knows another person who a long time had been afflicted with the Phthisic, with severe cough, &c., who was completely cured by two bottles of the Universal Cough Mixture.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON.*

No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION to Inventors.—The subscriber, (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be refunded by him in the case of a failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY, Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.
PATENT OFFICE, [illegible]

"R. H. Eddy, Esq., Boston, Mass.:

Sir:—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully, yours, &c.,

STARTLING, BUT TRUE!

WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influence incident to the enjoyment of health.

THE BLOOMING BRIDE,

But a few years ago in the flush of health and youth, and buoyancy of spirits rapidly and apparently inexplicably, becomes a feeble, sickly, sallow, debilitated wife, with frame emaciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration arising from ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often

"And must this continue? Must this be? Is there no remedy? No relief? No hope?"

The remedy is by knowing the causes and avoiding them and knowing the remedies and benefiting by them. These are pointed out in

THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION,

BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN.

One Hundredth Edition, (500,000), 18mo., pp. 250

[ON FINE PAPER, EXTRA BINDING, $1.00.]

A standard work of established reputation, found classed in the catalogues of the great trade sales in New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published in 1847, since which time

FIVE HUNDRED THOUSAND COPIES

have been sold, of which there were upwards of

ONE HUNDRED THOUSAND SENT BY MAIL,

attesting the high estimation in which it is held as a reliable popular Medical

BOOK FOR EVERY FEMALE,

the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described.

How many are suffer ng from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.). Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of as they are of a nature strictly intended for the married or those contemplating marriage.

Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of your children.

In consequence of the universal popularity of the work, as evidenced by its extraordinary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreptitious infringements of copyright, and other devices and deceptions, it has been found necessary, therefore, to

CAUTION THE PUBLIC

to buy no book unless the words "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y.," is on (and the entry in the Clerk's Office on the back of) the title page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau.

Upon receipt of One Dollar "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (mailed free) to any part of the United States, the Canadas and British Provinces. All letters must be post-paid, and addressed to Dr. A. M. MAURICEAU, box 1224, New-York City. Publishing Office, No. 129 Liberty Street, New-York.

Cure of a lady who had been sick for years with

SCROFULA!

I have been troubled fifteen years with a Scrofula Humor, and almost for weeks together was unable to do anything at all.

I have employed different physicians, and taken different kinds of medicine without temporary relief. It always [illegible] worse, and I had about given up ever recovering my health.

One day a friend called to see me and advised me to take Dr. Ordway's Humor Discovery and Blood Purifier. I took a bottle which made me feel considerable better. I have since taken two bottles and can say I have not been so well for years. I call myself quite well. Those who have been sick as I have, can rejoice at returning health. Yours Respectfully, MARTHA BANCROFT.
